never compromise on taste

Bavik. A true Belgian Pilsner, crafted by Brewery De Brabandere in Bavikhove, Belgium. This pilsner is uncompromised, brewed as it was in 1894. What makes Bavik a Super Pils?.....

100% MALT - No dilution assures the quality of the Pilsner. All ingredients are added during the brew process.

100% NOBLE BITTERNESS - By using only Aroma Hops there is a smooth bitterness with character leaving you with a soft and round aftertaste.

100% CRYSTAL CLEAR - 8 days of fermentation and 30 days of maturation guarantees a natural clarity and taste stability.

100% NATURAL FLAVOUR - Due to strict hygienic conditions we can avoid all heat treatment and bring you an unpasteurized Belgian pilsner with a unique flavor.
