# Gulden Draak<sup>®</sup>

Our brewmaster Jef Versele crafted this exclusive 'Gulden Draak Brewmasters Edition' as a tribute to his grandfather Jozef Van Steenberge and the 230th birthday of the brewery. His inspiration came from his numerous trips to the United States and his deepest respect for the Crafted Beer Culture. This Exclusive Gulden Draak combines the technology and the craftsmanship of the traditional brewing process. By letting the beer mature on Whiskey Barrels it gives it a distinguish and gentle finish that you have never tasted before.
