DRINKING TEMPERATURE - Serve between 45° and 48°F

BREWED & BOTTLED BY - Br. Van Steenberge

# Gulden Draak<sup>®</sup>

9000  
quadruple

An ode to the city of Ghent, for it's 9000 zip code-- the Golden Dragon stands guard atop the belfry.

Even though lighter in color than most quads, Gulden Draak 9000 gets its sweeter notes from a very large malt profile.

Three different malt varieties are used in this recipe, making Quad 9000 a great showcase for the complexity and elegance of this important and often overlooked ingredient.

Notes of banana peel, sour dough and pear glide along this silky brew for well rounded drinking experience. There is no additional caramel added to this brew!

The sweet caramel touches and dark color are reserved for the Gulden Draak Triple. As long as Gulden Draak is on the bottle however, it means the contents inside are dangerous.

Beware, this is the most drinkable quadruple on earth!

Food Pairing - Vegetable Soups, Hearty Fish Dishes, Barbecue

Cheese Pairing - Tomme De Savoie, Le Peral, Aged Gouda
