World Beer Awards

The people of the Czech Republic drink more beer per capita than any other country in the world. It is an integral part of their culture and they set the highest standards for the quality of their national drink. That's why Praga beer is brewed using time-honored methods, such as open vat fermenters and 50-60 day lagering periods (4x longer than most macrobrews).

Dark chestnut brown with a frothy, fruity medium-to-full body, Praga Dark Lager possesses a great balance of sweet, sour and earth flavors. The slight sweet flavour is a perfect match to a meaty dinner.
