

Troubadour Blond

BROUWERIJ THE MUSKETEERS – BELGIUM

Blond Ale, the brilliance of the golden hue is what strikes you first. The thick white tenacious head tells you this brew is handcrafted by those who care.

This craftsmanship has also been recognized by beer judges across the world as it was named to be one of the best Blond Ales in the world 2 years running. If that is not enough to convince you, try it for yourself. You will first experience the refreshing, sparkling effect on your tongue, which is followed by a soft bitterness enhanced by spices that finishes with a classic sweet sensation.

In the nose you will recognize the hops in combination with soft fruity esters. At 6.5% alcohol by volume, you'll notice a slight warming glow, but it's not overpowering. One can easily enjoy more than one glass, especially with dinner. We recommend pairing this ale with fresh fish & vegetables with a light sauce.

Just like all your favorite Belgian ales, it is a great beer to share with your friends, family or business partners anytime of the day or night. We hope you enjoy the complex yet refined flavour of Troubadour Blond as much as we do.
